Education

February, 2020 - MICROVERSE

Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developing skills in remote pair-programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.

Work Experience

May - October, 2022 - ISTOREISEND

Remote Frontend Developer & UI Designer, Full Time

- Collaborated with UX designers to implement proposed design layouts.
- Worked with Backend developers to discuss how newly developed features interact with existing codebase.
- Transformed UI components from design to code.

November, 2021 - MICROVERSE

Part-Time Code Reviewer

- Spent hours reviewing students' code for their submitted projects.
- Provided feedback on improvements that should be made to student code.

May, 2020 - MICROVERSE

Remote Mentor (Volunteer)

- Mentored junior web developers, and provide technical support through code reviews.
- Proposed improvements on code organization to improve code quality and overall performance.

Projects

Project Progress App — This project has features that allow a student to sign in and create a project. A student can add progress reports to the projects. The progress reports can have file attachments and will trigger email notifications to the Instructor on creation. [Project Link](#)

Quizzy — This is a quiz game that allows a user to answer questions by selecting any answer in the options. It loads questions from the Open Trivia db API and uses event listeners to capture the user input. [Project Link](#) | [Live Demo](#)

StudyGroups — This is a web-app that matches teachers and students in the same location to a study group. It uses Google Maps API to obtain their addresses. Students that are near each other are grouped into study-groups that are then matched with a teacher near them. [Project Link](#) | [Live Demo](#)

Decok — This is a website that showcases a variety of services for a client like modern kitchen building, wardrobes and texture painting. Clients can easily contact the business owner using the contact form or send chat live messages enabled by the Tawk.to. [Project Link](#) | [Live Demo](#)

Skills

Front-End: JavaScript, React, Redux, HTML5, CSS3

Back-End: Ruby, Rails, MySQL, PostgreSQL

UI/UX: User Research, Information Architecture, Visual Design, Prototyping

Tools & Methods: Git, GitHub, Heroku, Netlify, Responsive Development, RSPEC, TDD

Professional: Remote Pair-Programming, Teamwork, Mentoring
